

## Senior Dinghy Skipper Rating

The **Senior** skipper rating allows you to take out any boat in the CSC fleet in the Senior Areas (which are different for dinghy and keelboat—refer to the Club Operating Rules).

There is another option, the **Senior Dinghy** skipper rating. It allows you to take out any of the fleet's dinghies in the Senior Dinghy area. It doesn't include keelboat privileges, but you can sail a dinghy anytime you like—the Club doesn't have to be open. There are some restrictions: refer to the [Club Operating Rules](#). The process to get the Senior Dinghy skipper rating is similar to that for Senior skipper.

You need to do a Senior Project and pass the Senior Written exam (both of which will apply to the Senior Skipper rating). You have to pass **two** on-the-water tests in dinghies with two different members of the Rating Committee. The tester will specify the boat, so be certain of your advanced skills in JY-15s as well as other club dinghies. [These](#) are the skills you need and could be tested on.
